**RE: RECOMMENDATION LETTER FOR SIGN INDUSTRIES LTD**

Kindly refer to the above captioned matter

I feel honored to write a recommendation letter for Sign Industries Ltd whom we have known since early 2009. Being Head of Public Relations and Customer Care Unit, it was my first time to work with the company which has provided us with classic various signage and branding which met our requirements

The company has installed number of indoor & outdoor signs from the Welcoming sign at the entry point of the Muhimbili National Hospital to Emergency Medicine Dept., Administration Blocks, various other blocks, annexes and departments, lawn & garden signs etc.

Among the factors that makes this company unique is their expertise in offering professional recommendation and advice on type and size of sign suitable and appropriate for the need, scope and target of application. The colours, pictograph, symbols and fonts were given the consideration of being consistent with international standards of medical institutes.

The company has also furnished most signs at the New state of the art hospital at Mloganzila. From the huge 2 sided bill board at Morogoro Road junction at Kibamba to most directional and way finding signs, directories, door name plates, huge roof top and summit signs etc. were designed, manufactured and installed by Sign Industries Ltd.

The company is excellent in responding to calls, quick in offering assistance including physical site visits, providing technical assistance and solutions to the need. Moreover the company is stable and offers excellent after sales service as and when required.

Without hesitation, I highly recommend their services

Yours sincerely,

**Mr. Aminiel Aligaesha**  
**FOR: EXECUTIVE DIRECTOR**
