## 1 The appeal & versatility of CONVEX PROFILE

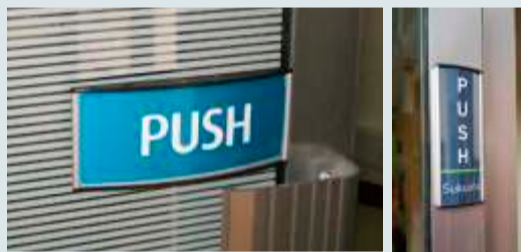

The message, text, printed graphics can be changed by user as and when needed by themselves without the need of requiring our services

Door sign

Matching table top sign

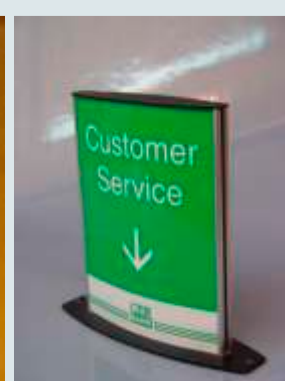

Matching PUSH sign

Universal convex profile - For various application. Single & double sided

Can be fixed on pole for Parking sign, or on base for Desk top, projecting or ceiling suspended

## The elegance & simplicity of **FLAT PROFILE**

It's **Modular system**, you can add, mix different size or colours in a single system subtract the face plates, alter or modify the system and it will still look elegant

### Usage & application:

- Door name plates, flexible in height & length.
- Slider name plates to change message instantly
- Door numbers for offices, Hotel rooms, school & other commercial use
- Directories on wall and hanging
- Way finding signs

**Material:** Face plates and side track are made of aluminum snap on brackets and end caps are made of plastic Comes in silver mill finish, can be painted to any color

We are factory trained and authorized professionals for designing concept using SLATZ aluminium directory and way finding signs using flat faced SLATS profile as well as other aluminium profiles in combination or stand alone. We are therefore expert in all custom tailored designs and projects to design attractive and appealing signs.
